PROFILE

Full-Stack Engineer, Tech Lead & Co-Founder with 4+ years of experience building and shipping products in startup environments across **e-commerce**, **logistics**, and internal business systems. Strong experience delivering products from initial development through production deployment using **React.js**, **Next.js**, **TypeScript**, **Node.js**, and **PostgreSQL**. Hands-on experience with **B2B**, **B2C**, and **D2C** commerce workflows, warehouse and logistics operations, REST APIs, payment integrations, cloud infrastructure, and leading engineering teams across customer-facing applications and internal business systems.

SKILLS

Front-end:	React.js, Next.js, TypeScript, Tailwind CSS, TanStack Query, Redux
Back-end:	Node.js, Express.js, REST APIs, RabbitMQ, Socket.io, Zod
Database:	PostgreSQL, MongoDB, Prisma, Sequelize, Redis
Cloud/DevOps:	AWS (S3, EC2, RDS, CloudFront), Docker, GitHub Actions, Hostinger VPS, Cloudflare R2
Architecture:	Distributed Systems, Admin Dashboards, Real-Time Systems, API Integrations
Tools:	Razorpay, Puppeteer, Handlebars, Google Maps API, OAuth, Jest, JIRA

WORK EXPERIENCE

Saphey (Premium Dry Fruits & Nuts)

Mar 2026 – Present

Co-Founder & CTO

Jammu

- Launched a unified commerce solution supporting **B2B**, **B2C**, and **D2C** workflows using **React.js**, **TypeScript**, **Node.js**, and **PostgreSQL**.
- Designed customer storefronts and internal admin systems for catalog, pricing, inventory, and order operations.
- Integrated **Razorpay** for checkout, payment verification, and order automation.
- Implemented wholesale, customer ordering, and inventory workflows across multiple sales channels.
- Managed deployment on **Hostinger VPS** with **Cloudflare R2**.
- Led product planning, technical architecture, and release delivery.

GWARM Technologies PVT LTD, Jaipur

Apr 2025 – Mar 2026

Tech Lead & Senior Software Engineer

- Worked on a product combining **e-commerce**, **warehouse management**, and **logistics operations** from order creation to final delivery.
- Designed workflows for fulfillment centers, warehouse inventory, dispatch, dark store operations, and last-mile delivery.
- Implemented backend services using **Node.js**, **PostgreSQL**, and **RabbitMQ**.
- Integrated **Google Maps API** for live tracking, route planning, and COD reconciliation.
- Managed infrastructure on **AWS CloudFront**, **ECR**, and **ECS**, and later migrated services to **Hostinger VPS**.
- Mentored junior developers and led a **6–7 member engineering team**.

DEPO24, Delhi

Sep 2022 – Feb 2025

Full Stack Developer

- Developed an e-commerce platform for **building materials** and **interior design products**.
- Designed storefront and admin systems for catalog, pricing, vendor management, inventory, and orders.
- Integrated **Shopify GraphQL APIs** and **Vinculum** inventory synchronization.

- Migrated core services from **MongoDB** to **PostgreSQL** and improved query performance.
- Implemented franchise and multi-role workflows for internal business operations.
- Collaborated with a **6–7 member engineering team** from development through deployment.

Coding Ninjas, Delhi
Teaching Assistant

Feb 2022 – Sep 2022

- Mentored 400+ students in Full Stack Development and reviewed project implementations.

FEATURED PROJECTS

Real Estate & Property Management Engine

Jan 2025 – Present

- Developed an admin dashboard using **React.js**, **TypeScript**, and **PostgreSQL**.
- Implemented advanced filtering, inventory workflows, and role-based access for sellers and retail customers.

EDUCATION

Yamuna Institute of Engineering and Technology

Jul 2017 – May 2021

B.Tech in Computer Science and Engineering – First Class Honours
